

The pet of the month is...

Sassey

Sassey is an 18 week old red tabby and white Domestic Long Hair kitten owned by Roger and Dalane Bingham. Sassey came to live with the Bingham's after their son adopted her sister. The next week Dalane went back to Kewaskum and brought Sassey home as well. Sassey was born on April 7th and quickly lived up to her name and even earned the nickname Miss Sasseypants. Sassey is a polydactyl which means that she has extra toes. Even though Sassey does not like going for car rides she does have play dates with her sister that she enjoys.

Sassey enjoys sleeping on her Kitty bed and in any sunny window. She loves to play and her favorite toys are a stuffed doggy toy and the toys with springs that hang from the cat tower Roger made for her. She likes several different types of treats and occasionally she will get a few licks of ice cream as a special reward. If Sassey is mad she will push her treats away with her nose.

While Sassey loves her parents, her best friend is Wilson; the family's 9 year old mixed Poodle. Wilson had surgery on his back last year and was having a long recovery. Once Sassey arrived Wilson transformed into a new dog. Sassey has helped Wilson with his recovery by getting him moving around more. They love to chase each other around the house and play hide and seek with each other. Sassey lives up to her name once again when she jumps into the air and lands on the dog. The two can even be seen sleeping together.

We look forward to many years of working with Sassey and her family.
