

The Pet of the Month is ...

Lily

Lily, a 2 year old black Lab, is a member of Jay and Cindy Vander Weele's family. Lily is an outdoor dog because Cindy has allergies; however Lily loves being outside and can always find something to keep her busy. She loves to play with her Frisbee and will eat just about any kind of treat. Her favorite activities are going for car rides, exploring in the fields and kissing the calves on the noses every morning when Cindy goes out to do chores. Lily has a lot of energy and is very social, loving and sweet.

Lily has a "brother" named Monte, who is a 10 year old American Eskimo. They get along very well and enjoy chasing and playing together; Cindy said that Lily has given Monte some of his youth back. Lily also loves to play hide and seek in the Soy Bean field. She will run around in the field until Cindy calls her, and then she pops her head up above the plants so she can see. After looking around for a few minutes she takes off running again.
