

Sunshine

Sunshine is a 1 year old domestic shorthair that lives with Kurt and Tammy Neils. Sunshine is their daughter Autumn's cat and loves to sleep in front of the fireplace and on Autumn's bed. He enjoys eating any type of treats and will even look through the garbage to look for treats.

He likes to play with ornaments on the Christmas Tree as well as jumping into boxes and playing with Midnight, the other cat in the household. Sunshine and Midnight came from the same farm but Sunshine is three weeks older. Sunshine and Midnight get along very well.

Sunshine likes to sleep and play with Midnight. When Sunshine was a kitten he unrolled a roll of toilet paper and got it wrapped around him so he pulled it all around the bathroom. Sunshine has been known to sleep in interesting positions and when he was younger he would climb into the sleeves of sweatshirts or robes and fall asleep purring. The doctors and staff look forward to seeing Sunshine and the rest of his family for years to come.
