

# CEDAR GROVE VETERINARY SERVICE NEWSLETTER

JUNE 2018

## JUNE IS DAIRY MONTH!!

Did you know that June Dairy Month started out as National Milk Month in 1937? At that time, June was a month when the dairy industry had a surplus of milk. The aim was to promote the drinking of milk to stabilize the dairy demand. Now it has developed into an annual tradition that celebrates the contributions the dairy industry has made to the world.

This month's newsletter will be a bit different since June is

the month that we celebrate dairy farmers, dairy cows, and the dairy products we all love. So, in place of a serious article about the dairy industry, this newsletter will hopefully provide a way to celebrate this month in a fun way. But, no need to worry, a newsletter with good dairy info to help run your farm will return next month.

### What Dairy Cow Breed Best Matches your personality?

**Take this quiz to find out**

**Cow Jokes to Tickle your Funny Bone**

A lady from the city and her traveling companion were riding the train through Wisconsin when she noticed some cows. "What a cute bunch of cows!" she remarked.  
 "Not a bunch, herd", her friend replied.  
 "Heard of what?"  
 "Herd of cows."  
 "Of course I've heard of cows."  
 "No, a cow herd."  
 "What do I care what a cow heard. I have no secrets to keep from a cow!"

Q: Why don't cows have any money?  
 A: Because farmers milk them dry

Q: What do you call it when a mad cow gets loose?  
 A: Udder destruction!

A farmer was milking a cow one day when he noticed a fly go in the cow's ear. After he was done with the milking, he saw the same fly in the milk. "That's funny," he said. "That fly went in one ear and out the udder!"

A farmer and his girlfriend were out for a stroll in the fields when they came across a cow and a calf rubbing noses. "Boy," said the farmer, "that sure makes me want to do the same." "Well, go ahead," said his girlfriend. "It's your cow."

**Results for Dairy Cow Breed Personality Quiz**

**If you answered mostly A's...you are a HOLSTEIN**

Holsteins are the most common breed in the world and produce the most amount of milk. They are known for being highly adaptable but are more susceptible to disease and heat.

**If you answered mostly B's...you are a BROWN SWISS**

Brown Swiss are a large, muscular, and highly adaptable breed. They have milk that is very high in protein. They have a very quiet and docile temperament.

**If you answered mostly C's... you are a MILKING SHORTHORN**

Milking Shorthorns are a dual-purpose breed that can be used for both dairy and beef. They are known to have a rougher disposition but are very attentive to their offspring.

**If you answered mostly D's... you are a JERSEY**

Jerseys are smaller, but their tough hooves make them very capable of handling rougher terrain. They also have milk that is very high in butterfat. Despite their small stature, Jerseys are known for being smarter than the other breeds which often gets them into trouble.

**If you had a mix of responses.... you are a CROSS-BRED DAIRY COW**

Cross-bred cows are more common now on farms since they often inherit the best traits from the mix of breeds
