## The pet of the month is...

---

### Lola

Lola is a 4 year old tan and white Cavalier King Charles Spaniel that is owned by Bev Evans and Nancy Yurk. Lola was born on October 31<sup>st</sup> 2008 and spends her days with her half-brother Baxter who was born one week earlier. Baxter and Lola, who have the same father, are inseparable. Bev originally brought Lola home and then decided that Lola needed a sibling so Baxter came home as well. Lola is a very social dog and loves to be around people, is great with children and loves to socialize with other dogs. When Lola is on a walk and she sees another person a block ahead she can't wait to catch up with them. Lola did agility for a year and loved it. Her only bad habit is that Lola still likes to jump.

Lola likes to relax and will sleep in either Bev or Nancy's beds. She will only sleep in her own bed when she is upset. She usually likes to chew on raw hide bones. Even though Baxter and Lola have 63 toys they don't really play with them. The only time they play with them is when they are getting a bath. Lola also knows how to tell time, she knows exactly when it is time to eat and will not let them forget where the food dishes and food are kept. Lola likes pretty much anything, she likes to eat bananas and apples. Everyone says that she likes "see food" and will eat almost anything that she sees.

The doctors and staff at Cedar Grove Veterinary Services have enjoyed working with Lola and Baxter and look forward to many more years with them.
