

The Pet of the Month is...

Meatball

Meatball is a 4 year old Longhaired Dachshund that lives with the Lutzke family. Meatball loves to sleep on a pillow on the children's beds and will curl up above their heads when they are sleeping in the bed as well. He likes to eat carrots and bananas with peanut butter on them.

Meatball enjoys playing with squeaky toys as well as going for walks, playing tug and sleeping. He also enjoys competing in the Dachshund Races at Germanfest in Milwaukee every year. He also competes in other races that benefit the Midwest Dachshund Rescue and goes on home visits for the Midwest Dachshund Rescue when people are looking to adopt. He came in second last year at the Germanfest Dachshund races and was only beat by his brother Jaba. Meatball and Jaba get along great and love being together.

Meatball is very friendly and outgoing. He has a very soft coat and is overall a good dog. The doctors and staff look forward to seeing Meatball and the rest of the Lutzke family for years to come.
