
The pet of the month is...

Co Co

Co Co is a 10 year old Border Collie that lives with John and Marilyn Birenbaum. She turned 10 years old on May 1st. She loves to protect her family by laying on the floor by their bed at night. During the day she likes to sleep in her den in the living room. When she is in her den she is sleeping behind the rocking chair with her head under the end table. Her favorite treats are MilkBone Gravey Bones.

Co Co enjoys running, catching her tennis balls, swimming in Lake Michigan, going for car rides and chasing after cats and rabbits. She did hurt her knee this winter so she has had to take it easy and stay in the house. Marilyn can definitely see that she is getting older. Recently Marilyn saw her outside nose to nose with a rabbit and the rabbit didn't ever run from her.

When Co Co was younger she was very entertaining. One morning John and Marilyn woke up to find a brown stuffed ball had been shredded overnight and pieces were scattered from the bedroom to the kitchen. When Co Co was asked if she had done that she just looked at them like 'Why would I have done something like that. Of course I did not'.

We look forward to seeing more of Co Co and the rest of her family.
