
The pet of the month is...

Daisy

Daisy is a one and a half year old spayed female mixed Bichon Frise that is tri colored and is living with Jamie Dieringer. Daisy is very laid back and loves people, especially licking them. She likes sleeping in Jamie's bed even though she is not supposed to be on the bed. She also likes sleeping on the couch, where she is allowed. Her favorite treats are mini Milkbones.

Daisy enjoys playing with rubber balls with bells in them as well as a wobbly treat dispenser that she chases around the house trying to get the treats out. She also runs after the laser pointer. Jamie has taught Daisy several tricks including clapping and dancing.

Daisy likes going for walks and playing fetch. She is also an avid bird watcher from her patio. She will look for birds when she is asked where they are. Daisy also likes to chew on socks.

The doctors and staff at Cedar Grove Veterinary Services are looking forward to seeing both Daisy and Jamie for many more years to come.
