

The Pet of the Month is...

Peaches

Peaches is an eleven and a half year old mixed dog that lives with Dave and Darcie Eggert but she is actually their 11 year old daughter, Tara's dog. Tara inherited the dog when her grandfather passed away about a year and a half ago. Peaches loves to sleep on Tara's bed. Her favorite food is bananas and she even has a stuffed banana toy that is her favorite toy.

She always looks forward to going for car rides and enjoys any treats that she is given. She will dance for her treats. Peaches is afraid of storms and she can be found sleeping in the walk in closet during them. Peaches lives with two other dogs, they get along well and love to chase each other. The doctors and staff at Cedar Grove Veterinary Service look forward to seeing Peaches and her family for many years to come.
