

Penny

Penny is a six year old Australian Shepherd that lives with Greg and Sharon Karrelsand was adopted from the Wisconsin Humane Society in Milwaukee four years ago after she was brought in as a stray. Penny loves to sleep in her crate with the door open (she doesn't like it closed), on the wood floor next to her crate when it is warm out and on Greg and Sharon's bed when she can. She is not allowed on the bed but Sharon will occasionally allow her to, especially when it is thundering and lightning because Penny is afraid of storms. Penny will eat any and all treats.

Penny's favorite toy is a tennis ball and she enjoys playing fetch; however her version of fetch is a little different than normal. When she plays fetch she will bring the ball back but not drop it right away. Before she drops the ball she has to have her back pet. Then she is ready for another round of fetch. She also likes to go for walks, have her belly scratched, going for car rides and playing in the water at the beach. Penny also tends to sense when people are upset or not feeling well and will seek them out to comfort them. Sharon's mom is not a dog person but she loves Penny.

Penny is a very gentle dog and the doctors and staff look forward to seeing her and the rest of her family for years to come.
