

Rudy

Rudy is a one and a half year old English Springer Spaniel that lives with Richard and Linda Rose. Rudy loves to be in his kennel, also known as his apartment. He has all of the luxuries including a kennel, nice rubber floor, outside park area with fence, a fan and his radio that is always tuned into a cuntry station. Rudy is not a very big fan of rap or hip hop. He will spend his time in his apartment laying on top of his kennel watching the road and everything that is going on around him. He also looks forward to his showers; several times a day when it is hot out Richard will give Rudy a shower with a mister attached to the hose. Rudy's favorite treat is pigs on a blanket dog treats that Richard will break in half for him and he will do any thing for them, including shaking with his left paw.

Rudy enjoys playing with his stuffed phasant the fifth, they don't last very long with him, and any of the Kong® brand toys. Rudy loves to train with his pheasant where he finds and retrieves them. Rudy has one season of hunting under his belt and he did very well. He lives to please and is very soft mouthed while hunting. He did have to learn how to swim on the spot last year when he accidentally fell into a drainage ditch that was well hidden while he was hunting with Richard. Rudy mastered swimming very quickly but was pretty tired when he got out. He also likes to go for rides in the Gator® and knows that he has to sit still after he accidentally fell off when he was younger.

Rudy has two best friends, Miniature Horses named Lenney and Dickie. This past winter Rudy has a birthday party with his entire family including Lenney and Dickie and even got to wear a birthday hat. Rudy loves coming to the vet and the doctors and staff look forward to seeing him and the rest of his family for years to come.
