

# *The pet of the month is...*

---

## **Schautzie**

Schautzie is a 4 year old black Miniature Schnauzer who is Pat Schutt's constant companion. Schautzie is not a barker and is very well behaved. Pat enjoys spoiling her especially with her favorite treats, Lean treats and Science Diet Ideal Balance treats. She looks forward to going for walks and running. Schautzie loves to be around and play with other dogs as well as people and cats. Schautzie enjoys playing with her toys and her favorites are a long squeaky snake and a ducky. Each of her toys has a name and she knows them all. She is only happy when her toys are covering the living room floor.

Schautzie is very laid back and loves to sleep in Pat's bed with here. She also likes to sleep in a chair in the living room but only after she turns in circles several times until she finds just the right spot. The only time she is nervous is during thunderstorms and then she runs into the bathroom and makes a little nest out of the rug in there for herself.

We enjoy seeing Pat and Schautzie and look forward to many more years to come.
