

# Shelby

Shelby is an 8 ½ year old Chihuahua that lives with Dan and Lois Roth. She has been featured as the “Pet of the Day” 3 times on WKLH. She loves to sleep on a sheep skin rug on the couch, on the bed, and will sleep on her owners chest under a hoody when it is cold out. Shelby LOVES to snuggle. She has several favorite toys but really enjoys her toy rat, raccoon, skunk and fox. Shelby loves to eat rawhides that have chicken around them, but she will only eat the chicken part not the rawhide. She also looks forward to getting her Heartgard every month and sees it as a treat.

Shelby enjoys car rides, going for walks, and chasing chipmunks, ground squirrels, and mice at night. She also loves to go swimming when it is warm and run on the beach and in the sand. Once while she was running in the sand, jumping from sand island to sand island, she realized that she was on an island and could not get off because she did not want to get wet. While Shelby doesn’t have any other animals living with her she will go to visit Dan and Lois’s son where she will chase his cat.

Shelby is a great listener, good with kids and loves everyone. She looks forward to getting the treats that the mail man will leave in the mail box for her and then she will hide them in shoes. When she was little she heard wolves howling while up north, she then started mimicking them. Lois and Shelby will walk through the drive through at Culvers and get a hamburger. They will then sit outside at a picnic table and eat them. The doctors and staff at Cedar Grove Veterinary Service look forward to seeing Shelby and her family for many years to come.
