

The pet of the month is...

Tasha

Tasha is a 3 ½ year old yellow mixed Labrador Retriever. Tasha now lives with George and Peggy Limbeck.

Tasha was a stray in Kentucky when she was hit by a car and the bones between the knee and hip in her right rear leg were broke in two different places. Two Left Paws found a Sheboygan doctor and his wife to donate the money to not only transport Tasha here from Kentucky but to have Dr. Baker repair the leg. After Tasha's rehabilitation from surgery, George and Peggy adopted her.

She loves to ride in cars, take walks (especially at the Lake Front), the occasional nail trimming with Halloween orange nail polish and in general has enjoyed being the spoiled 4-legged princess of their lives. Dr. Baker's surgery was so good; Tasha shows no signs of the injury except a fading scar. She has truly brought joy (and needed exercise) to George, Peggy and their families.

We have enjoyed seeing Tasha and her family and are looking forward to seeing them for many more years to come.
