Onyx

Owned by: Dr. Reilly

Age: 6 years

Breed: Domestic Shorthair

Fun Tidbit: Onyx was my junior surgery cat from my 3rd year of veterinary school. She was the first cat that I spayed on my own and is proof that I did have basic surgical skills of a small animal vet.

Fun Tidbit: Onyx has moves with me to five different places in the last five years. She loves to ride in vehicles and would always stare at other drivers through the passenger window when I used to drive home from Madison as a vet student.

Food: Onyx is currently on Science Diet Optimal Care

Health Conditions: Onyx is a healthy cat other than she is a little over weight.
